**GEN II™**

A NEW GENERATION OF ELEGANTLY DESIGNED SPAS

# GEN-II™ The Most Efficient and Cost-Effective Hot Tub in the Industry!

The GEN-II™ Collection from Cal Spas combines classic design, cutting-edge technology, and value while delivering a total body hydrotherapy experience. Take outdoor living to a whole new level of comfort in the privacy of your own home. Designed to exceed expectations, Cal Spas™ uses a patented 7-layer laminate system, known as Fibersteel™ Construction, and sets the bar with strict standards in efficiency, insulation and filtration resulting in better spa performance, better water circulation, cleaner water, and lower energy bills.

MADE IN THE USA

## Energy Efficient

### Convenient “Plug & Play” Kit

All standard GEN-II™ Spas operate off a standard 110V outlet. Simply set it up, fill it up and plug it in.

### Whisper Power Unit™

Equipment with Digital Top Side – An intuitive electronic spa control system designed to easily adjust the settings of the spa to meet your therapeutic needs.

### Blue LED Spa Light

Each spa is equipped with a beautiful Blue LED Spa Light to help illuminate your hot tub. LED lighting is the most energy efficient, cleanest and most eco-friendly way to provide spa lighting.

### UL

All Cal Spas hot tubs are completely UL certified and UL Listed to meet and exceed all standards of compliance. The UL product certification programs are accredited by the U.S. Occupational Safety & Health Administration (OSHA), the American National Standards Institute (ANSI), and the Standards Council of Canada (SCC).

## Superior Insulation

### Shell-Loc™ Foam with Thermo-Layer Blanket

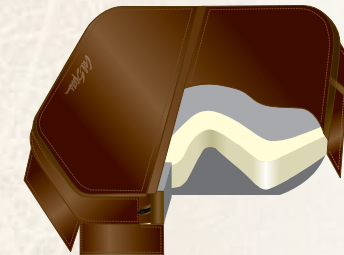

An energy efficient solution for encapsulating residual heat generated while spa is in use. Combining a high density foam layer to the bottom of the shell, wrapped with a thermo-blanket surround, reflects radiant heat and adds a barrier which prevents air from escaping.

Thermo-Layer™ Blanket

High Density Foam

### Hydro-Armor Spa Cover

A 4”- 2-1/2” insulated cover with 1.5 lb density foam core provides enhanced heat retention and adds an extra layer of thermal insulation.

### Bottom Armor ABS Shield

Seals out cold air and moisture and retains valuable heat.

### Thermo-Guard™ Full

Foam Insulation (optional)  
(Replaces Shell-Loc Foam with Thermo-Layer Blanket) Our high density Thermo-Guard™ full foam insulation locks all plumbing firmly in place and offers the highest heat retention.

## Durable and Reliable

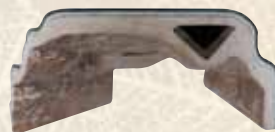

### HD Power Frame Pump

Our 2.0 BHP high-performance pump efficiently circulates and filters spa water while using less energy when compared to a two pump system.

### Cal Preferred™ Cabinet Panels

The cabinet is an integral part of the construction of the spa. Each cabinet is designed to provide maximum support for every spa and can be styled to match your favorite shell color with smoke colored cabinet panels.

### Fibersteel™ Construction

Patented 7 layer laminate system reinforced with steel and wood creates one of the strongest shells in the world.

### Exclusive Stainless Steel Candy Cane™ Jets

Adjustable On/Off design. These jets are carefully placed along the lines of the body, allowing you to massage away stress while comfortably leaning back in the luxuriously-designed seating, delivering the highest quality hydrotherapy and relaxation experience available.

### WhisperHot™ 5.5 kW Heater

The larger 5.5 kW flow-through heater operates quietly and requires less run time to maintain desired temperature, resulting in lower operating costs.

## Effective Water Management System

### 50 Sq. Ft. Filter with Weir Gate

This easy to access, reusable filter provides balanced filtration and prevents debris from re-entering your spa.

### Dedicated Lounger Seat

Ergonomically designed and sculptured to cradle your body with strategically placed hydrotherapy jets that provide the ultimate full body massage.

### Bench Seats

These contoured bench seats provide a great range of movement and side-by-side seating for your guests, making it easy to get closer for more private encounters.

### Waterfall Feature (optional)

Your choice of a Cascading Waterfall or Hydrostreamers on selected models.

### Pure Silk™ Ozonator (optional)

Instantly kills bacteria and viruses when ozone is introduced into the spa water, greatly reducing chemical usage.

### 1 x 5.0 BHP 240V HD Power Frame Pump (optional)

(Replaces 2. BHP 110V standard pump and eliminates 110 GFCI plug and play Cord. Requires 240V electrical installation) Motors are equipped with larger bearings and produce more torque. Runs cooler and lasts longer.
