*Cal Spas unveils new line of  
luxury 2-person hot tubs*

**Pomona, CA — (July 25, 2017)** Cal Spas, the leading hot tub and swim spa manufacturer in the United States, proudly announces the newest line of luxury 2-person hot tubs.

The new Veranda™ Spas feature eighteen, twenty, or twenty-two stainless steel halo jets that massage gently to provide relief to aching and tight muscles. Stress, anxiety, and any worries melt away after only a few minutes in these spas.

“This spa was in response to the high demand,” Rob Santos, Cal Spas’ Product Development Manager, said about the Veranda line. “It’s the perfect spa for baby boomers who have kids that have ‘left the nest.’”

Both Cal Spas’ Veranda™ V-420B and V-422B come equipped with underwater multicolor LED lighting packages and Freedom™ Sound System with Subwoofer, Bluetooth, and two (2) speakers to help create any mood.

The Veranda™ V-422B model features Cal Spas’ exclusive Fountain of Youth™ system, which fills your spa water with billions of oxygen-rich micro-bubbles. These micro-bubbles energize skin cells, stimulate the immune system, improve collagen production, kill bacteria, and promote healing to reduce fine lines and wrinkles!

“The Veranda line has many health benefits, and it can be used outdoors as well as indoors when properly ventilated. Its many features are what led it to be the most searched 2-person hot tub on the internet,” said Santos.

The Cal Spas team works diligently to manufacture products in Southern California in 5 days or less which then are distributed to a worldwide specialty dealer network.
